## REASONS FOR ALLOWANCE

The main reason for the allowance of claims 1-12 is the instantly claimed method of removing more dense material from a fluid medium, comprising: forming a centrifuge core with at least one receptacle having an opening and a flow path extending therethrough; forming a centrifuge with the centrifuge core disposed within an outer non-rotating collecting sleeve; rotating the centrifuge core around an axis of rotation to create centrifugal force to separate the more dense material from a fluid medium by directing the more dense material through the opening into a void area formed by the receptacle and through the flow path to a collection zone between the centrifuge core and the non-rotating sleeve; **and creating an excitation force within the centrifuge such that the excitation force imparts a vibration on the more dense material.**

Regarding claims 1-12; Konline discloses a method of removing more dense material from a fluid medium, comprising: forming a centrifuge core (10) with at least one receptacle (10a) having an opening and a flow path extending therethrough; forming a centrifuge with the centrifuge core (10) disposed within an outer non-rotating collecting sleeve (13); rotating the centrifuge core (10) around an axis of rotation to create centrifugal force to separate the more dense material from a fluid medium by directing the more dense material through the opening into a void area formed by the receptacle (10a) and through the flow path to a collection zone between the centrifuge core and the non-rotating sleeve.

**Regarding claims 1-12; Komline fails to disclose or fairly suggest the step of creating an excitation force within the centrifuge such that the excitation force imparts a vibration on the more dense material.**

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
